

## **Sleeping With Art: The Art Of Car(d)s**

In July 2022, artist Deane Hodgson (Mr What & Mrs Why) issued an international Call For Art in conjunction with Sleeping With Art, calling for collages featuring cars.

Fifty-two submissions were selected to form a limited-edition set of commemorative playing cards.

However, with over 250 entries from more than 100 artists across 26 countries, the response was so overwhelming we decided to create an installation showing the breadth and quality of submissions received.

The result before you is, we believe, the world's biggest ever exhibition of car-art collages.
